

# STATES AND REGIONS 2019 WEBINARS

## How and why to report your climate action – Annual Disclosure 2019

New to the CDP reporting platform? Join our webinar co-hosted by CDP and The Climate Group to receive step-by-step guidance on how to access the 2019 States and Regions online questionnaire. Each year, CDP and The Climate Group call upon all states and regions to publicly report on their climate action. Disclosure helps governments to better understand the risks and opportunities of climate change and benchmark their climate action and ambition. We are pleased to commence the 2019 reporting period with the opening of the CDP States and Regions reporting platform.

## Improving transparency and accelerating state and regional action to reduce deforestation and forest degradation

Designed for state and regional governments, this webinar will help attendees better understand CDP's new forest module for its States and Regions questionnaire, which aims to facilitate transparency and drive further action to reduce forest loss. CDP will be joined by UNDP to provide an overview of the New York Declaration on Forests, an international declaration to take action to halt global deforestation.
